The Science of Government

***“Law constitutes government”
—Mary Baker Eddy***

Law as defined in Science is quite distinct from laws adopted for the regulation of civil, political, social, economic and religious affairs. Consequently, it is important to get a correct understanding of the basis and origin of spiritual laws and their inherent nature.

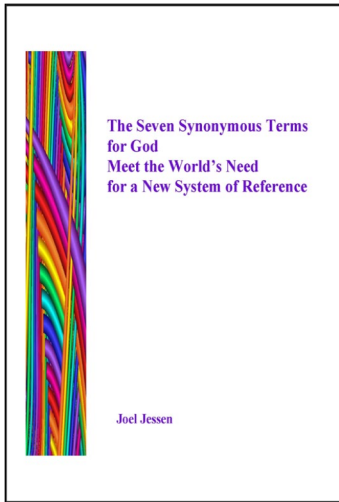

Mary Baker Eddy, who discovered the Science of all sciences, established the fact that law is not created by a single man, ruler, king, or despot, nor by a majority of people; but is eternally vested in God, divine Principle, alone.

“Human law is right only as it patterns the divine” (My. 283: 26).

To Welcome the New Mutation of Consciousness: Understanding and Demonstrating Our Divine Origin

“The time cometh when the spiritual origin of man, the divine Science which ushered Jesus into human presence, will be understood and demonstrated” (S&H 325:26).

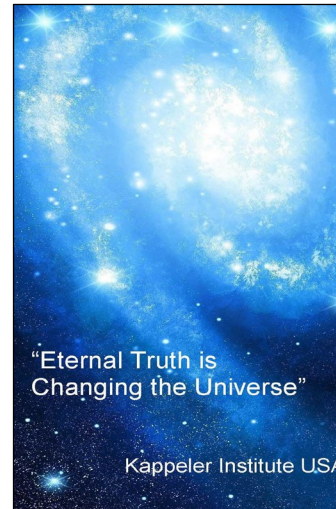

The Seven Synonymous Terms for God Meet the World's Need for a New System of Reference

According to Bruce Wilshire (American educator and philosopher), “We are confined to a store of conceptual tools that may be inadequate to the task of comprehension we may even forge new conceptual tools and see the world in quite a different way—indeed, the world may be quite different...” (Bruce Wilshire, *Metaphysics* (New York: Pegasus, 1969), pp. 27, 29.

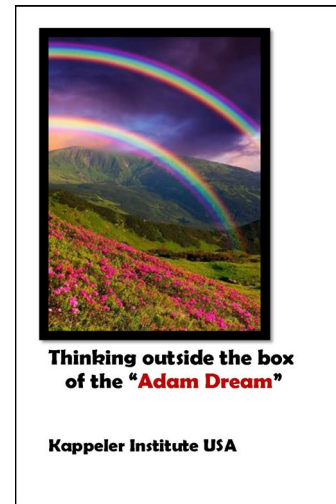

Mary Baker Eddy (Discoverer and Founder of Christian Science) in the late 1800's presented to the world a new divine system of reference. She presented new conceptual tools when she declared: “God is incorporeal, divine, supreme, infinite Mind, Spirit, Soul, Principle, Life, Truth, Love”, and adds that these terms for God are synonymous (S&H 465:9). Thus, she designated **Mind, Spirit, Soul, Principle, Life, Truth, Love** as the foundation of the divine system of reference which enable us to comprehend the nature and essence of spiritual reality.

“Eternal Truth is Changing the Universe”
—Mary Baker Eddy

“Eternal Truth is changing the universe. As mortals drop off their mental swaddling-clothes, thought expands into expression. ‘Let there be light,’ is the perpetual demand of Truth and Love, changing chaos into order and discord into the music of the spheres” (S&H 255:1-6).

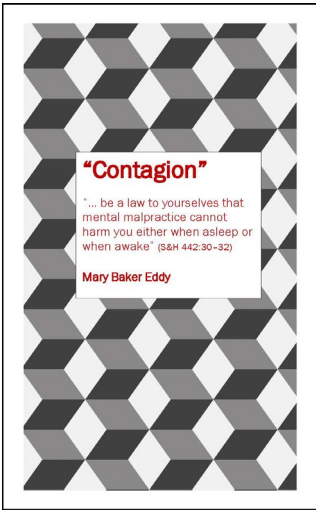

Thinking Outside the Box of the “Adam Dream”

“Mortals must emerge from this notion of material life as all-in-all. They must peck open their shells with Christian Science, and look outward and upward” (S&H 552:16-19).

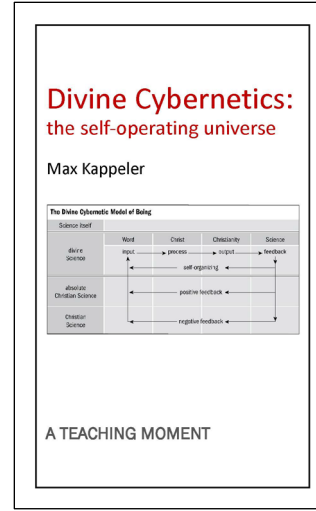

“Because mortal mind must waken to spiritual life before it cares to solve the problem of being, hence the author’s experience; but when that awakening comes, existence will be on a new standpoint” (S&H 556:26-30).

“Divine Science rolls back the clouds of error with the light of Truth, and lifts the curtain on man as never born and as never dying, but as coexistent with his creator ...when God, Mind, spake and it was done”

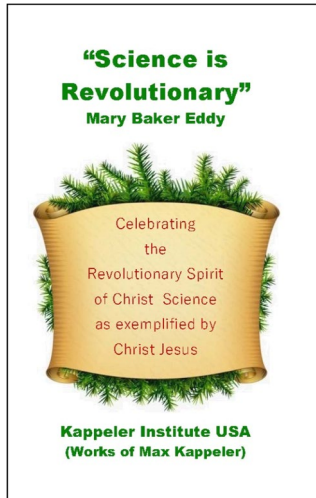

“Contagion”
—Mary Baker Eddy

“Whatever man sees, feels, or in any way takes cognizance of, must be caught through mind; inasmuch as perception, sensation, and consciousness belong to mind and not to matter. **Floating with the popular current of mortal thought without questioning the reliability of its conclusions, we do what others do, believe what others believe, and say what others say.** Common consent is contagious, and it makes disease catching” *Prose Works, Miscellaneous Writings* (p. 228).

Divine Cybernetics:
The self-operating universe

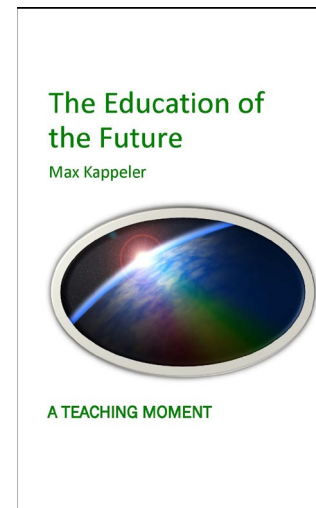

It is generally assumed that man thinks and that thinking originates in the brain. But is man the primary creator of thoughts? Can mankind claim intelligence exclusively? Was not evolution, prior to the appearance of man and the brain, led and impelled by a goal-directed intelligence? To whom or what can this pre-human intelligence be attributed?

“Science is Revolutionary”
—Mary Baker Eddy

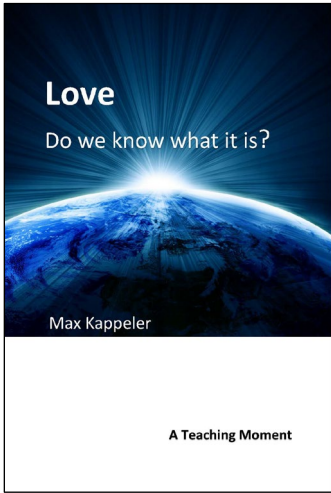

“Science is absolute and final. It is revolutionary in its very nature; for it upsets all that is not upright.”

“...are you called to voice a higher order of Science? Then obey this call. Go, if you must, to the dungeon or the scaffold, but take not back the words of Truth” *Prose Works, Mis.* (p. 99).

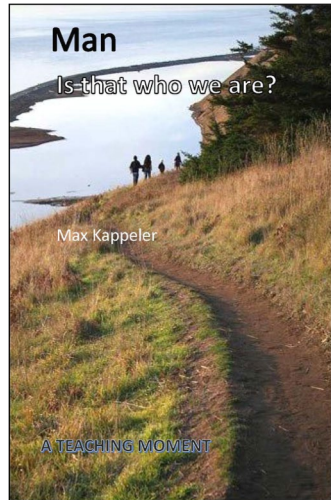

The Education of the Future

“The education of the future will be instruction, in spiritual Science, against the material symbolic counterfeit sciences. All the knowledge and vain strivings of mortal mind, that lead to death, — even when aping the wisdom and magnitude of immortal Mind, — will be swallowed up by the reality and omnipotence of Truth over error, and of Life over death” —Mary Baker Eddy (*Mis.* 61:4).

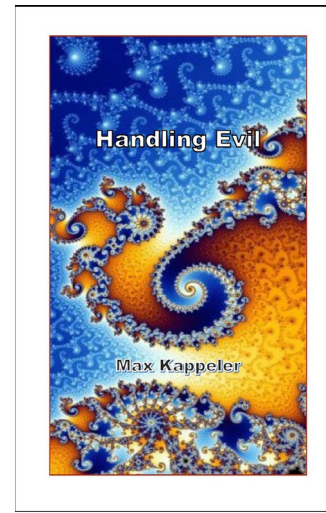

Love – Do we know what it is?
The intelligent divine Principle, Love

“Withdraw God, divine Principle, from man and the universe, and man and the universe would no longer exist. But annihilate matter, and man and the universe would remain the forever fact, the spiritual ‘substance of things hoped for;’ and the evidence of the immortality of man and **the cosmos is sustained by the intelligent divine Principle, Love**” (My. 226:14).

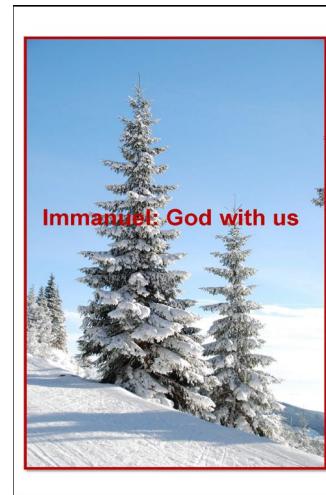

Man
Is that who we are?

“Question.—What is man?
 Answer.—Man is not matter; he is not made up of brain, blood, bones, and other material elements. The Scriptures inform us that man is made in the image and likeness of God. Matter is not that likeness. The likeness of Spirit cannot be so unlike Spirit. Man is spiritual and perfect; and because he is spiritual and perfect, he must be so understood in Christian Science” (S&H 475:5–13).

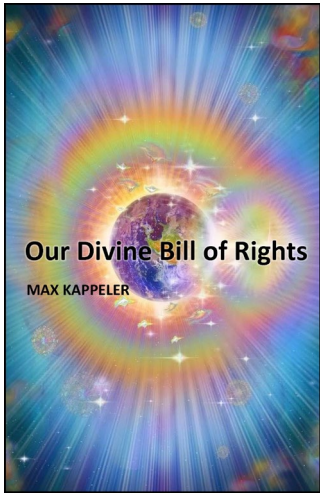

Handling Evil

“During this final conflict, wicked minds will endeavor to find means by which to accomplish more evil; but those who discern Christian Science will hold crime in check. They will aid in the ejection of error. They will maintain law and order, and cheerfully await the certainty of ultimate perfection” (S&H 96:31–97:4).

Immanuel: God with us

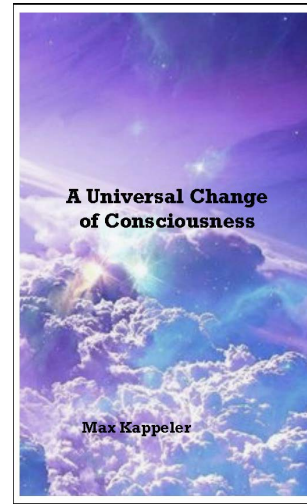

Oneness within the sixth chapter of the Textbook, ‘Science, Theology, Medicine’ reveals that:
 God comes to us, is present with us and works in us like leaven, until everything in us corresponds to the divine. God not only manifests itself in us, but also is forever one with us. This new standpoint of oneness resounds throughout the sixth chapter (edited excerpt from Max Kappeler’s *The Science of the Oneness of Being in the Christian Science Textbook*) pp. 119–121.

Our Divine Bill of Rights

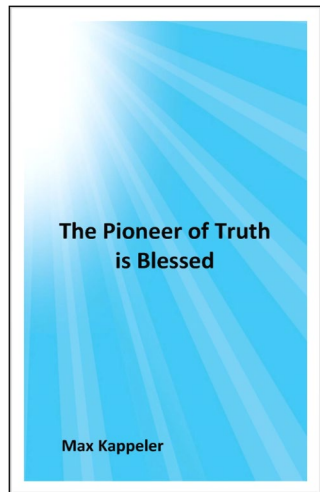

Our divine rights and divine laws come from God, not from a human form of government. “Human law is right only as it patterns the divine”
Mary Baker Eddy (My. 283:26).

The development of the rights of man in human experience has had a long and bloody history. All down the ages mankind has fought for their birthright—for liberty. With an understanding of Science mankind is set free not only from the bondage and slavery to other men, but also set free from myriad lies and false material beliefs.

A Universal Change of Consciousness

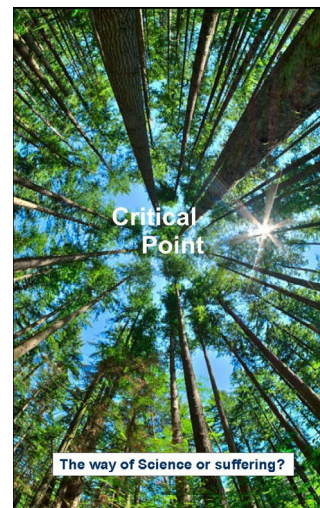

The urgent problems of today seem so overwhelming that they can no longer be solved by one person, by one particular nation, or by any specific human system. Even the futurologists point out that a change for the better can only come about when a change takes place in the general world consciousness. A “savior” for the world’s insoluble problems, is not a person, but rather a universal change of consciousness.

The Pioneer of Truth is Blessed

In today’s “arena for conflicting forces” (S&H 96:12–13) it’s easy for each one of us to feel persecuted for our beliefs. It is therefore necessary for us to understand the general claim that animal magnetism “pursues with hatred the spiritual idea” (S&H 564:30–31).

Our best protection is to stand firm and understand that in adhering to a progressive spiritual idea we partake of Principle, God’s boundless blessings of love.

Critical Point: The way of Science or suffering

With our welcoming of Principle, God’s all-encompassing divine plan, our individual experience (here and now) will be one of Science and peace, but if we resist ‘eternal Truth’s changing of the universe’ (S&H 255:1), we will appear to experience much suffering.

Mrs. Eddy writes; “Either here or hereafter, suffering or Science must destroy all illusions...” (S&H 296:6).
